Education

Function Up School of Technology (Starex University)	**Aug 2023 - Present**
Bachelor of Technology in Computer Science	*Gurgaon, Haryana*
Army Public School Chennai	**April 2022 – March 2023**
CBSE (Class: XII, Percentage: 79%)	*Chennai, Tamil Nadu*
Army Public School Ranikhet	**April 2020 – March 2021**
CBSE (Class: X, Percentage: 83%)	*Ranikhet, Uttarakhand*

Relevant Coursework

- Data Structures
- Web Development
- Algorithms Analysis
- Frontend Development
- ReactJS
- NodeJS

Projects

React API | *HTML, Bootstrap, ReactJS, CSS*   ⬡ March 2024

- Developed an innovative web application leveraging ReactJS, empowering users to seamlessly interact with RESTful APIs for data management.
- Intuitive user interface enabling effortless data manipulation, including viewing, creating, updating, and deleting data.
- Engineered with the latest web technologies, ensuring optimal performance and user satisfaction.

Carzuu (Our Car Featuring Website) | *React JS, Bootstrap, MUI, CSS*   ⬡ April 2024

- Developed and implemented a responsive feature for the Carzuu website using React.js, Bootstrap, MUI, CSS.
- Leveraged React's component-based architecture and state management techniques for efficient data handling and scalability.

BHARAT EXPLORE | *JavaScript, HTML, Bootstrap, CSS*   ⬡February 2024

- Spearheaded the development of a captivating travel blog, enriching user experiences through dynamic content and interactive elements.
- Seamlessly integrated maps, galleries, and immersive storytelling features, fostering meaningful engagement with the audience.

PORTFOLIO | *JavaScript, HTML, Bootstrap, CSS*   ⬡May 2024

- Created a comprehensive portfolio website showcasing my journey as a software developer, featuring detailed project descriptions, skills, and a contact form.
- Utilized modern web technologies such as HTML, CSS, JavaScript, and frameworks like React and Node.js to build an interactive and visually appealing site.

Technical Skills

Languages: HTML/CSS, JavaScript, Java
Developer Tools: VS Code, IntelliJ, GitHub, Postman
Technologies/Frameworks: ReactJS, NodeJS, GitHub

Non-Technical Skills/Traits

Skills: Time Management, Problem-solving, Competitive Programming, Teamwork
Traits: Curious, Goal Oriented, Leader, Winning Mindset, Adaptable, Reliable, Flexible

Leadership / Extracurricular

Fraternity

- Passionate advocate for open-source development, actively contributing to collaborative coding projects.
- Participated in various hackathons like LeetCode, CodeChef, and GFG, leveraging the open-source community to enhance skills and collaborate with peers.
